**Alessandro Scattolin Named Managing Director At AIM Travel & AIM Meeting**

Written by Fabian Stockton  
Tuesday, 02 February 2010 12:40

Alessandro Scattolin, former General Manager of the company, has achieved a new prestigious target as he was recently nominated Managing Director of AIM Travel and AIM Meeting.

During the past five years, AIM Travel and AIM Meeting increased considerably their core business of meeting organisation and communication service.

A real added value, centred on real partnership and full professional advice, has been the main reason of the success of AIM Travel, that has become one of the major players on the market, thanks to the establishment of long term agreements with the major pharmaceutical companies, including, for some national and international clients, a full outsourcing of their events management activity.

Alessandro Scattolin, a thirty-year-old, has made his whole career within AIM Travel.
